

# Statistics on R&I case outcomes and lessons to be learnt

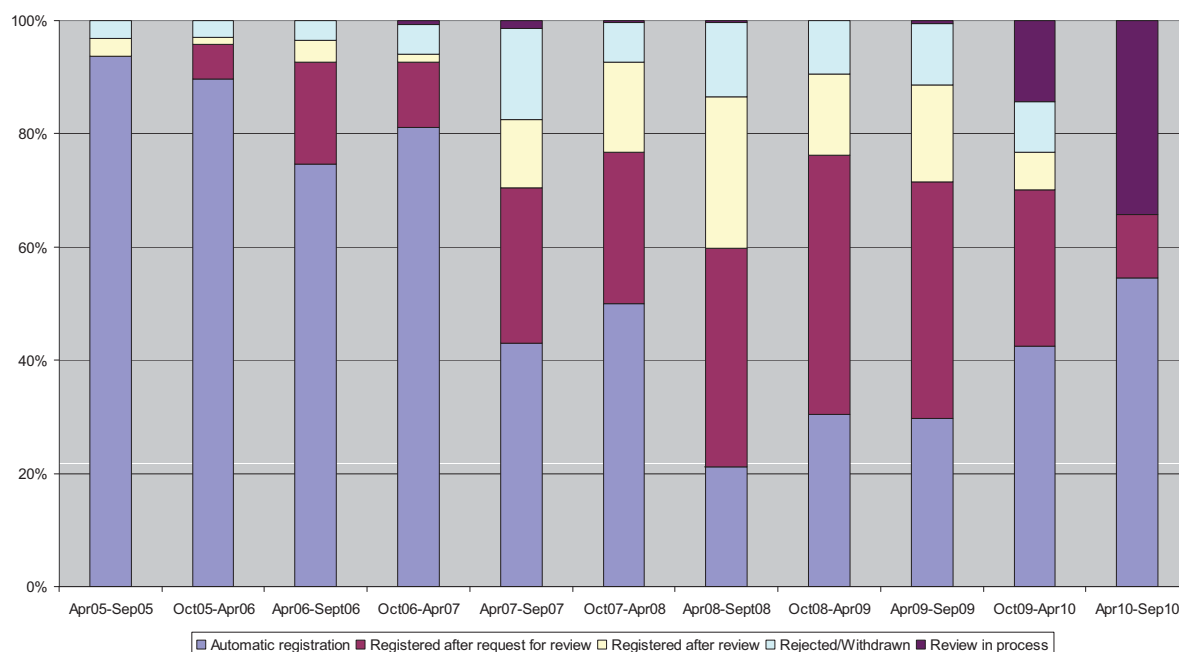

Workshop on Improving the Regional Distribution of CDM Projects in Asia and the Pacific

Manila, The Philippines, 9 September 2010

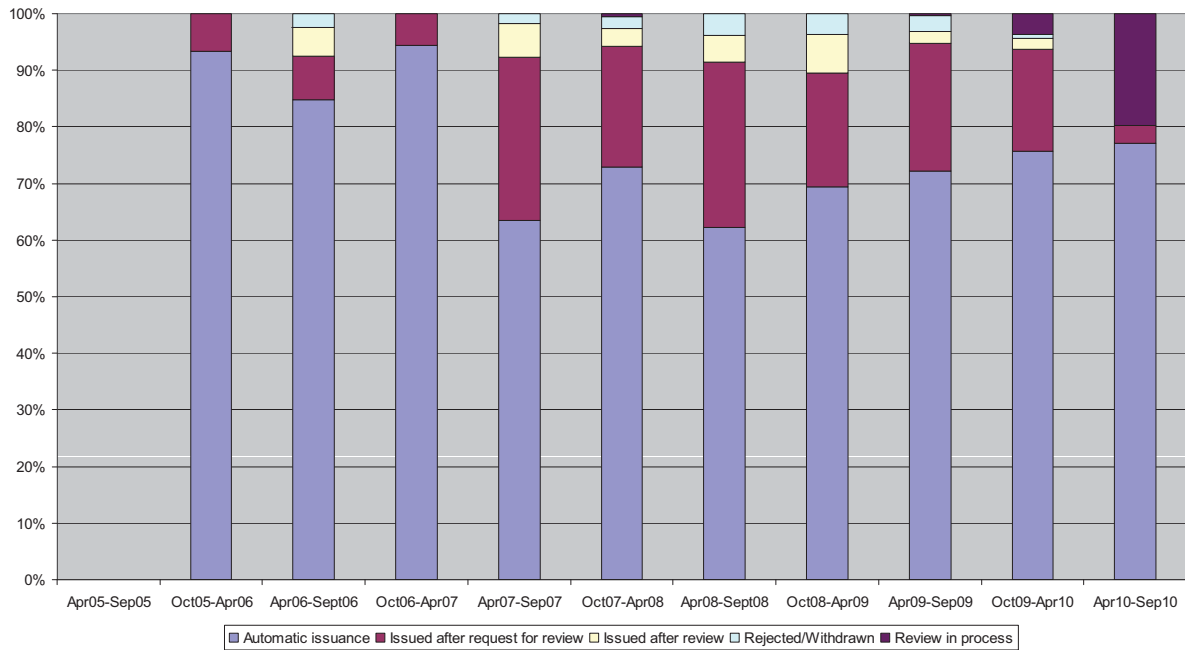

**Conor BARRY, Head of Unit**  
Organization and Stakeholder Development,  
Sustainable Development Mechanisms

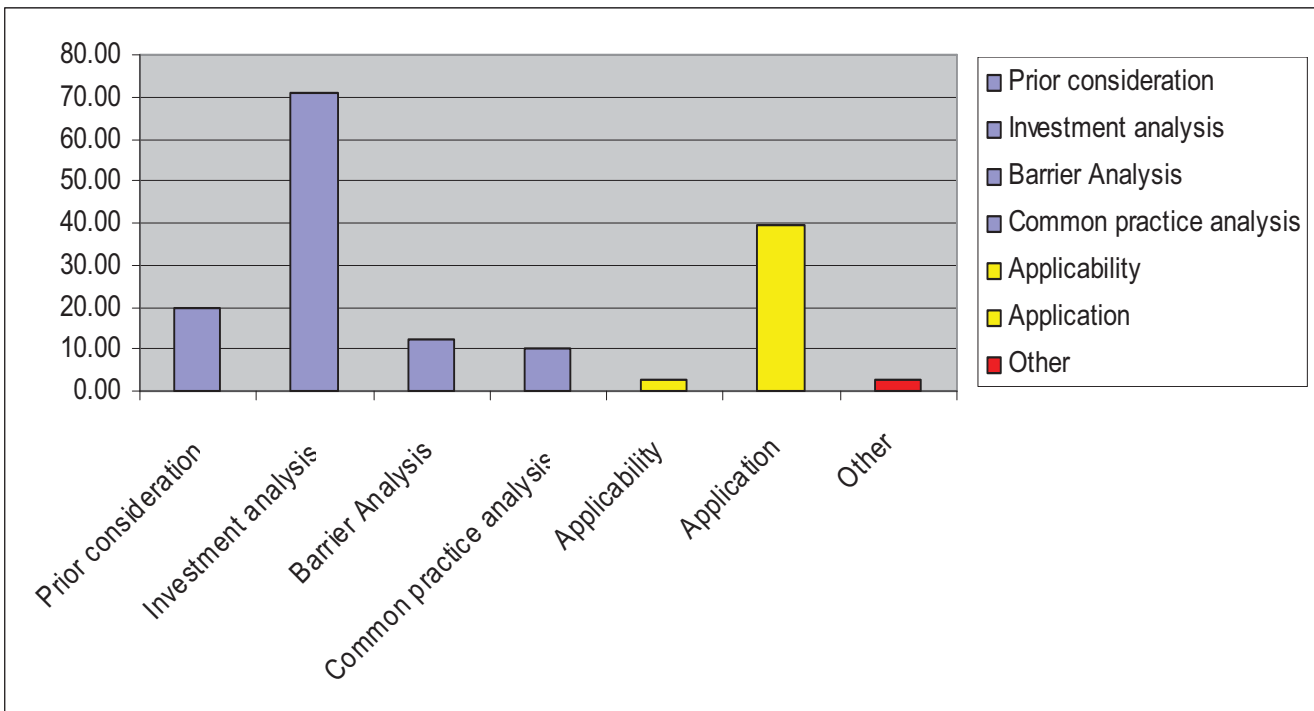

## Outcome of registration requests

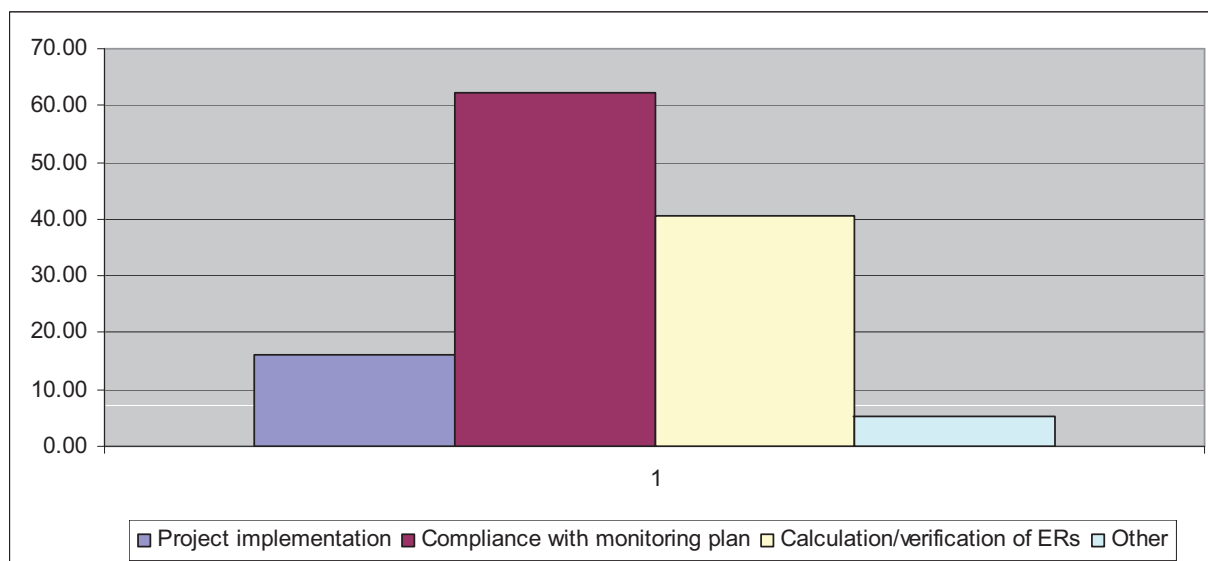

Outcome of issuance requests

Reasons for requests for review - Registration

#### Lessons learned

### **Registration**

- Be precise in the definition of the project start date and clear regarding the evidence of prior consideration
- Be thorough in including all affected variables in investment analysis and describe their sources
- Be realistic and consistent in the description of the baseline
- Ensure the requirements of the methodology are being applied

### **Issuance**

- Apply the requirements of the monitoring plan
- When not possible request a revision to the plan as soon as possible
