

Question 1. Should CDM be leveraged to accelerate effort towards alleviating poverty, Sustainable Development in the Asia Pacific region? (Bangladesh, Pakistan, Cambodia, Mongolia, Iran, PNG)

Please discuss also, why this be the focus, what does that mean to us- any repositioning? If this is not the focus what other focuses? Or multiple focuses ok?

Question 2. How to integrate CDM into poverty reduction strategies? Please discuss the sectors which have co benefits of poverty reduction and CDM potential.(Malaysia, Timor Leste, Fiji, , Lao -PDR, Afghanistan)

Also discuss specific project and programs within the sectors?

Question 3. What barriers do you see in using CDM as a tool for poverty reduction? Please discuss. (Indonesia, Philippines, China, Viet Nam, Maldives, Solomon Islands)

We don't know specific opportunities, opportunities that we know cannot be structured as CDM as methodologies do not exist, ownership and sharing issues(institutional) are too complex, bundling is complicated, benefit are too small and do not catalyze efforts, buyers consider such projects too risky, managing such projects are too complex.....

Question 4.What is your partnership strategy to engage the participation of all the stakeholders including south-south cooperation? Please discuss. (Samoa, Sri Lanka, Bhutan, Nepal)

Do discuss potential partners at all stages project cycle (opportunity identification, legal and institutional arrangements, methodology approval, validation and registration, monitoring and transaction, selling CERs etc) - CDM projects with Poverty alleviation focus-
