

The NDC Implementation and Experience Sharing

November 15th 2016 Tuesday, 09:00-10:45 am

The event invites government officials and experts to elaborate the implementation plan of China's National Determined Contributions (NDC) and to discuss the implementation of East Asia countries' NDCs in post Paris Agreement era. Topics include but not limited to outlook of East Asia low carbon development collaboration, low carbon infrastructure investment in Asia, best practices in low carbon pilot programs in East Asia, and market and non-market mechanisms in East Asia to foster climate change mitigation. This event is hosted by the Climate Change Department of National Development and Reform Commission (NDRC) and National Center for Climate Change Strategy and International Cooperation (NCSC), and co-organized by Global Green Growth Institute (GGGI), Institute for Global Environmental Strategies (IGES) and International Institute for Sustainable Development (IISD).
