Notes: "Total reported by country in aggregate" is taken from the UNFCCC, except in the case of EU Member States, for which data are taken from the annexes to the 2013 EU Accountability Reports. "Total included in data set" comprises data reported at the project or programme level to the UNFCCC, except in the case of Norway, where data were sourced from Norad and OECD (Moe et al. 2013).

Aggregate totals may differ from data set totals in cases where countries have not reported their full contribution at the project or programme level, or where differing exchange rates have been used by different sources. (When the total in the data set exceeds the total reported by the country in aggregate, we count the total not in the data set as 0 rather than as a negative figure.) Likewise, the distributions between major objectives, financial instruments, and channels from this data set may differ from aggregate information reported by countries as a result of different methodologies employed. For this data set, currency conversions are based on OECD exchange rates for the year of the commitment when available or for the 2010-12 average for projects that could not be tagged to a specific year. Other EU Member States are Bulgaria, Cyprus, Czech Republic, Estonia, Greece, Hungary, Latvia, Lithuania, Luxembourg, Malta, Poland, Portugal, Romania, Slovakia, and Slovenia.
