

Draft agenda

How the Joint Crediting Mechanism (JCM) could address the achievement of Nationally Determined Contributions (NDCs) and the Sustainable Development Goals (SDGs)

Date: December 10th, 2019 11:45 – 13:15

Venue: Japan Pavilion

Overview:

This side event will discuss how JCM partner countries can achieve their NDCs through JCM implementation. It will also discuss how the JCM, with regard to Article 6 of the Paris Agreement, can contribute to the Sustainable Development Goals (SDGs), which are closely related to the environment, society, and economy. During this side event, the Ministry of the Environment, Japan, representatives from two partner countries, a representative of the Asian Development Bank, and an IGES researcher will report on the development of the JCM with some examples of its contributions to NDCs and SDGs.
