

India-Japan Environment Week

Seminar on Initiatives and Issues related to Transfer of Japanese Environmental Technologies in India through Activities of Japan-India Technology Matchmaking Platform (JITMAP).

Time & Date: 10:00~11:20 am (IST) / 1:30~2:50 pm (JST) on January 13, 2023

Venue: The Imperial New Delhi & Online

Organisers: Institute for Global Environmental Strategies (IGES) and
The Energy and Resources Institute (TERI)

Seminar Outline:

The main objective of this seminar is to introduce the outline and outcomes of activities to promote Japanese environmental technologies through JITMAP to the participants, who are mainly Japanese and Indian government agencies, local governments, international organizations, business people and experts such as energy auditors, etc. and to promote understanding of the benefits of the technology introduction, including reductions in energy consumption. In addition, we will invite companies and other stakeholders from both countries to share specific barriers and issues related to the introduction of Japanese environmental technologies, discuss solutions to them, including cooperation between the governments of Japan and India and communicate the importance of Japan-India collaborative efforts to help India achieve net zero emissions.

Programme:

Opening Session
Welcome remarks: Dr. Satoshi Kojima, Programme Director, Kansai Research Centre, Institute for Global Environmental Strategies (IGES) Special remarks: Mr. Yasuo Takahashi, Executive Director, IGES
Overview, Accomplishments, and Challenges of JITMAP
Moderator: Mr. Girish Sethi, Senior Director, Energy Program, The Energy and Resources Institute (TERI) <u>Background Presentation and Activity Reports :</u> Presentation 1: Report on JITMAP activities (General) Mr. Toshinori Hamaguchi, Programme Manager, Kansai Research Centre, IGES Presentation 2: Report on JITMAP activities on Compressed Air System. Mr. Tsukasa Saito, IGES Fellow, former employee of Hitachi Industrial Equipment Systems Co., Ltd. Presentation 3: Introduction of energy efficiency improvement through JITMAP activities Mr. Dinesh Raskar, Assistant Manager, Trinity Engineers Pvt. Ltd. Presentation 4: Report on JITMAP activities on Steam Management System Mr. Ravi Prakash Mishra, Engineer- Sales & Support, TLV PTE LTD. India Liaison Office <u>Panel Discussion:</u> “Issue for Introduction of Japanese Environmental Technologies and Their Solutions” Panelist 1: Mr. Ketan H Kakkad, Senior Consultant, Gujarat Industrial and Technical Consultancy Organisation Limited (GITCO), Ahmedabad Panelist 2: Mr. Tsukasa Saito, IGES Panelist 3: Mr. Dinesh Raskar/Mr. Pravin Narsale, Trinity Engineers Pvt. Ltd. Panelist 4: Mr. Ravi Prakash Mishra, TLV PTE LTD. General Summary and Closing Remarks: Dr. Satoshi Kojima, IGES
