MUNICIPALIDAD DE RENCA

Claudio Castro Salas

Mayor of Renca (Chile)

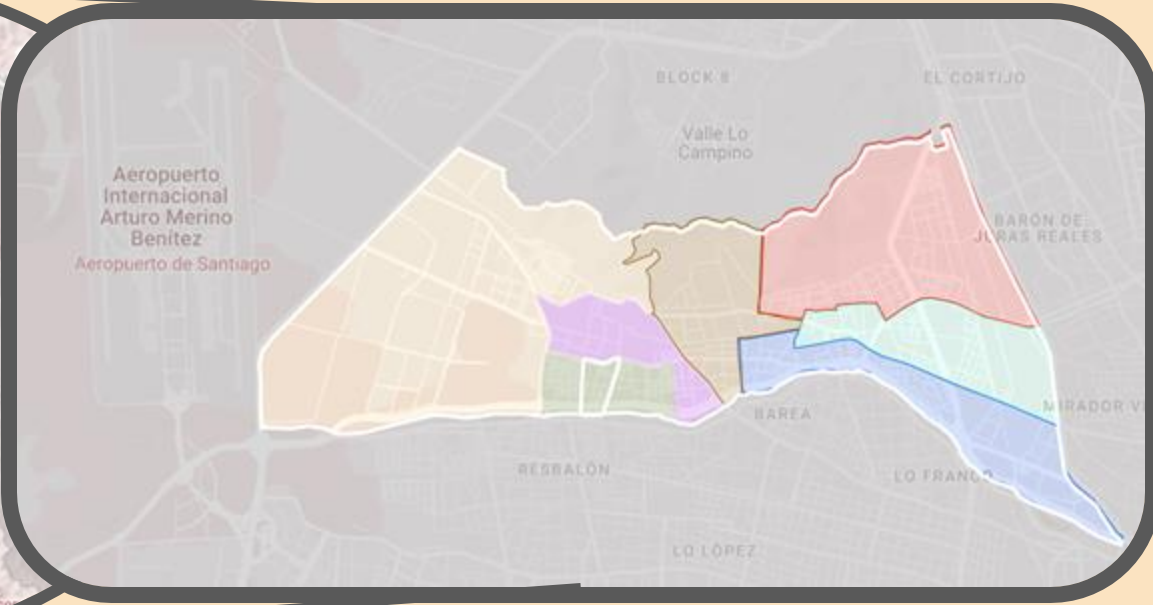

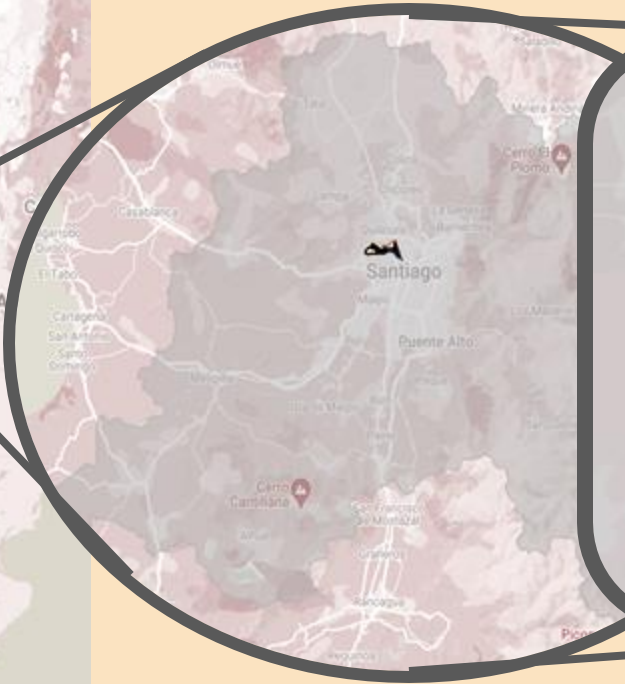

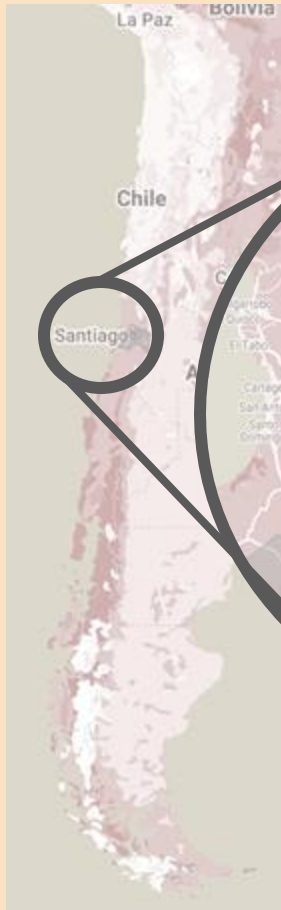

Third municipal period.

OECD Champion Mayor - Steering Group

5 years in the City-to-City Collaboration Program

One JCM Project - Themcorp

Renca is one of the 52 cities (*borough*) in Santiago, Chile

Renca has the **only thermoelectric plant** in the Metropolitan Area

One **key** to achieve the net zero, it's to **involve the private companies**

In 2022, one private company applied to the JCM subsidy, and they achieved the subsidy

It is a **solar plant of 2 MW**, allowing the mitigation of ~ 1000 ton $\text{CO}_{2\text{eq}}/\text{yr}$

How can we work together to **transform** Renca?

Gamification and environmental education strategies

Adoption of new and innovative technologies
