

Voluntary Local Review YOKOHAMA

Yokohama's motivation for formulating a VLR

19th Feb, 2025

Akiko YAMAKOSHI

Manager for Global Networks Division

International Affairs Bureau, City of Yokohama

Learned from “SDG Leadership Cities”

Established by
BROOKINGS

17 Cities from **13** Countries

Why VLRs?

VLR as a City Management Process

- We can use VLRs to verify the progress of SDGs locally and use the data to improve future policy making.

VLR as a Communication Tool

- We can share the systems and know-how we learn and implement, and develop stronger solutions together.

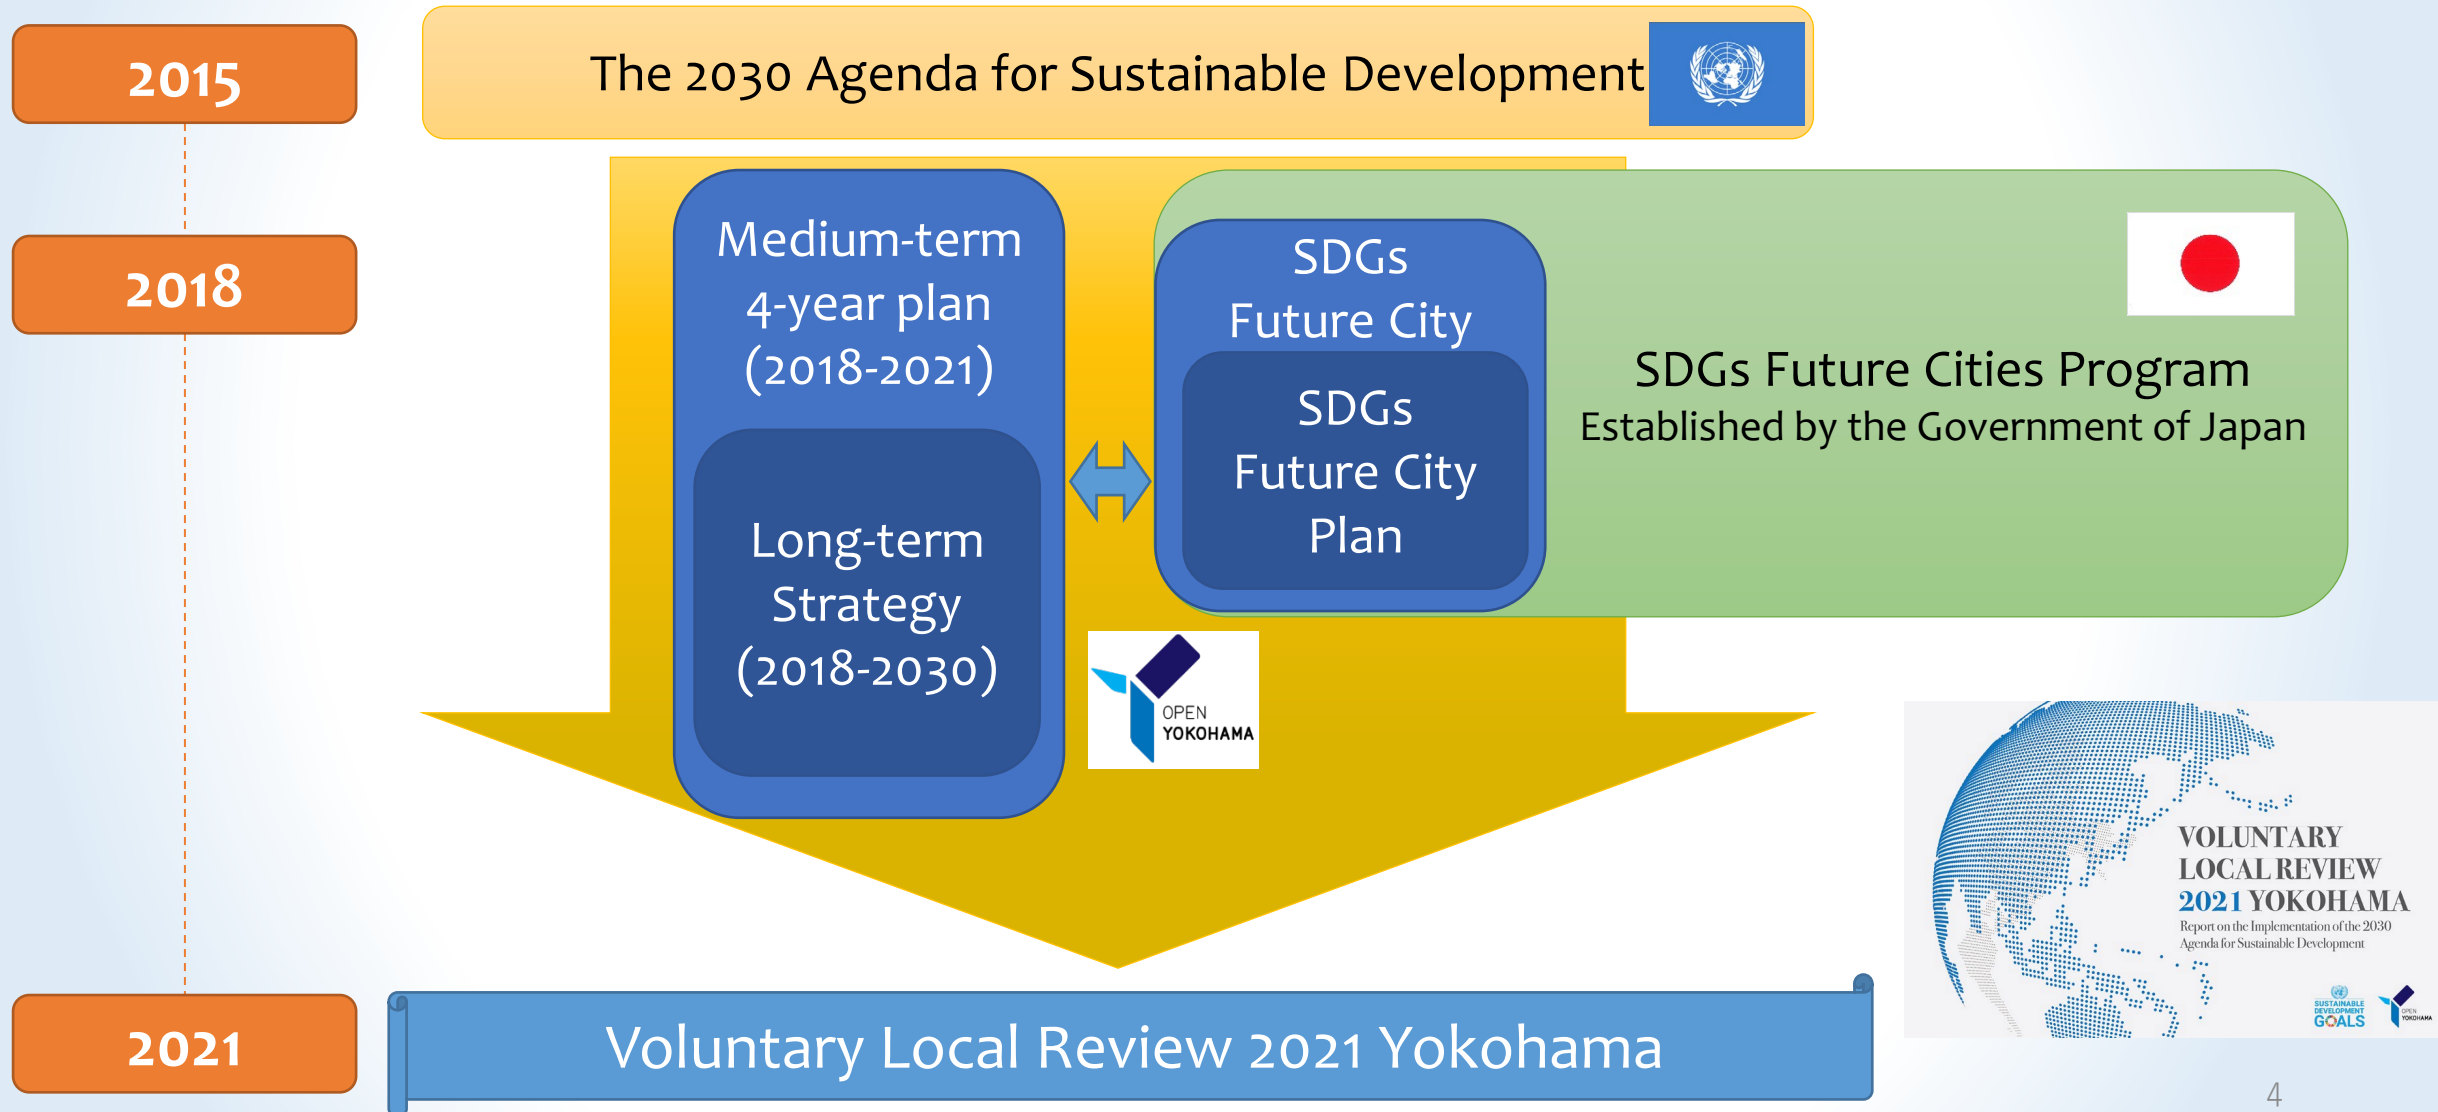

VLR as a Global Movement

- VLRs could become a catalyst to disseminate local voices and actions to the greater world.

Incorporating SDGs in Local Framework

Institutional Mechanism

SDGs Promotion Headquarters

Head: Mayor

Joint Secretariat: Climate Change Policy Headquarters, Policy Bureau,
International Affairs Bureau

Climate Change Policy Headquarters

- Review the local SDGs model projects
- Promote the SDGs FutureCity

Policy Bureau

- Plan and review the Yokohama Mid-Term 4-Year Plan
- Develop and manage KPIs

International Affairs Bureau

- Share city's actions with the world
- Collaborate with international partners

Related Bureaus and Ward Offices : Promote related projects

All Bureaus and Ward Offices : Promote SDGs

Mapping the SDGs into Local Agendas

[6 Strategies of the Yokohama Mid-term 4-year Plan against 17 SDGs]

	Strategy 1	Strategy 2	Strategy 3	Strategy 4	Strategy 5	Strategy 6
1 NO POVERTY 					●	
2 ZERO HUNGER 	●					
3 GOOD HEALTH AND WELL-BEING 			●			
4 QUALITY EDUCATION 	●	●			●	
5 GENDER EQUALITY 					●	
6 CLEAN WATER AND SANITATION 		●				
7 AFFORDABLE AND CLEAN ENERGY 		●				●

Setting KPIs and Reviewing Progress

MEASURES	KPI	Progress
An Economically strong and creative city	Number of projects created by open innovation	98%
	Number of cooperation / collaboration projects with overseas cities, etc.	75%
	Tourism consumption	27%

MEASURES	KPI	Progress
A Leading environmental city	Community-based flower and green initiatives in 18 wards	75%
	Greenhouse gas emissions in the city area	107%
	Total amount of garbage and resources	88%

MEASURES	KPI	Progress
A City Undaunted by Population Ageing	Number of networks with community-based welfare organizations and institutions through Community Care Plazas, etc.	85%
	Cancer screening detailed examination consultation rate	73%
	Number of participants in local long-term care prevention activity groups	119%

MEASURES	KPI	Progress
A City That Grows by Bringing People and Businesses Together	Average number of passengers per day at stations in central Yokohama	Aggregation currently in process
	Satisfaction with maintenance around the nearest station	91%
	The number of housing units supplied in consideration of child-rearing households in public housing implemented by city policy	86%

MEASURES	KPI	Progress
A city where everyone can thrive	Percentage of women in managerial positions (section chief level and above) in city offices	57%
	Number of Yokohama senior volunteer point participants	59%
	Number of people who have improved towards independence in youth independence support organizations	61%

MEASURES	KPI	Progress
A forward-thinking resilient city	Number of sections of emergency traffic routes where the risk of collapse of roadside buildings has been eliminated	90%
	Maintenance rate of deep-water quay for container boats	100%
	Inspection survey using a nozzle camera on the inner surface of a sewer pipe that has passed 30 years	94%

Referencing SDGs Local Indicator Lists

Goal 1. End poverty in all its forms everywhere

	Local Indicators	Current Data (Year, Area)
1.1.1	Continuing to consider candidate indicators	n/a
1.2.1	1.2.1.1 Household percentage by annual income class (• Households less than 1 million JPY (9,091 USD)/ordinary households • Households less than 2 million JPY(18,182USD) /ordinary households • Households less than 3 million JPY(27,273USD) /ordinary households • Households less than 4 million JPY (36,364 JPY) /ordinary households • Households less than 5 million JPY(45,455 USD)/ordinary households)	1.2.1.1 • 3.7% • 12.4% • 26.7% • 40.7% • 52.4% (2018, Yokohama)
	1.2.1.2 Percentage change rate of household ratio by annual income class* (Household percentage by annual income class / Household percentage by annual income class as of 5 years ago) -1) *Changed the calculation method of the index	1.2.1.2 Less than 1 million JPY (9,091 USD): 8.8% Less than 2 million JPY (18,182USD): 4.2% Less than 3 million JPY (27,273USD): 2.3% Less than 4 million JPY (36,364 JPY): 0.7% Less than 5 million JPY (45,455 USD): -0.6%
1.2.2	Continuing to consider candidate indicators	n/a
1.3.1	Continuing to consider candidate indicators	n/a
1.4.1	Water supply penetration rate (Water supply population / total population)	99.999% (2019, Yokohama)

Why VLRs?

VLR as a City Management Process

- We can use VLRs to verify the progress of SDGs locally and use the data to improve future policy making.

VLR as a Communication Tool

- We can share the systems and know-how we learn and implement, and develop stronger solutions together.

VLR as a Global Movement

- VLRs could become a catalyst to disseminate local voices and actions to the greater world.

Mayor's Commitment

1. OPENING STATEMENT

Due to globalization, the movement of people across national borders has increased dramatically, and the threat of infectious disease epidemics and transmission has also increased. The spread of the COVID-19 has exposed the problems of a disparate society that is widespread not only in developing countries but also in developed countries. In addition, it has been pointed out that the increase in the world population and industrialization / urbanization may worsen water / food problems and health problems in the future. In order to protect people's health and safety from the threat of pandemics now and in the future, we will not only improve the medical care provision system, but also improve the infrastructure and nutritional status to improve the sanitary environment such as water and sewage and waste treatment in developing countries. In addition, in recent years, large-scale disasters caused by large typhoons, hurricanes, cyclones, and torrential rains have occurred one after another all over the world. It is

Recognition through Global Platforms

Why VLRs?

VLR as a City Management Process

- We can use VLRs to verify the progress of SDGs locally and use the data to improve future policy making.

VLR as a Communication Tool

- We can share the systems and know-how we learn and implement, and develop stronger solutions together.

VLR as a Global Movement

- VLRs could become a catalyst to disseminate local voices and actions to the greater world.
