

Identification of capacity building activities for implementing Article 6

1. Article 6 reporting and corresponding adjustments; Mutual Learning Program for Enhanced Transparency
2. Readiness activity for Article 6 : Institutional arrangement, MRV and peer learning
3. Pilot activity: Infrastructure development, domestic market policy and participation by private sector

Guiding question: 1. Article 6 reporting and corresponding adjustments

- What kind of activities have you been supporting for institutional arrangements and reporting aspect of the Article 6.
- What kind of challenges and lessons learned from them? What do you suggest for further capacity building activities in implementing Article 6?

Guiding question: 2.Readiness activity for Article 6

- What kind of activities have you been implementing for institutional arrangements including reporting and recording (such as registry) for the countries participating Article 6? What kind of challenges and lessons learned from them?
- What kind of support do you expect for the participation to Article 6.4 mechanism including design of baseline and CDM transition in the Alliance?

Guiding question: 3. Pilot activity for Infrastructure development and domestic market policy.

- What kind of support have you been providing and/or planning to provide for the institutional arrangement including reporting for the countries in Asia and Pacific in implementing the Article 6. What kind of lessons learned from them?
- What kind of support would you plan to provide for the participation to Article 6.4 mechanism including design of baseline and CDM transition in the Asia and Pacific region?

Guiding question: 3. Pilot activity for participation by private sector

- What kind of institutional arrangements will facilitate the implementation of the Article 6 from the perspectives of private sector?
- How Article 6 will enhance participation of private sector and support ambition?
