章構成

Chapter 1: Transformative change and a sustainable world (分析フレーム提示)

Chapter 2: Visions of a sustainable world – for nature and people (持続可能な社会像)

Chapter 3: How transformative change occurs (TCはどのように起こるか？)

Chapter 4: Overcoming the challenges of achieving transformative change towards a sustainable world (TCの阻害要因を)

Chapter 5: Realizing a sustainable world for nature and people: means for transformative strategies, actions and roles for all (TCを起こす制度, 政策・その他メカニズム, 進捗の評価方法, TCのシナリオ & 経路)

アセスメントを通じて、15のOverarching questions(次のスライドではうち5つを紹介)にこたえることが使命

Overarching questions (例示としての抜粋)

- (a) What are transformative changes, and how do they relate to current approaches to managing biodiversity, ecosystem services, and nature's contributions to people? (TCの定義、TCは生物多様性とどう関係するか?)
- (c) How do transformative changes link to the relationship between the underlying causes the direct drivers responsible for causing biodiversity loss and degradation? (TCは生物多様性の低下や劣化を引き起こす直接要因とどのような関係にあるか?)
- (f) How do different groups envision a sustainable world in the context of the 2050 Vision Biodiversity, the post-2020 global biodiversity framework and its targets, as well as national biodiversity strategies and action plans, and nationally determined contributions and long term strategies of the Paris Agreement adopted under the UNFCCC (for matters related to the links between biodiversity and climate change) and the 2030 Agenda for Sustainable Development? (社会・文化的背景の異なる人々が描く多様な持続可能な社会像)
- (h) What future scenarios and pathways could lead to the transformations needed to achieve global objectives mentioned above? Which levers and policies in these scenarios and pathways are central to enabling these transformations? (持続可能な社会を実現するシナリオや経路にはどのようなものがあるか? TCを引き起こすうえで重要となる政策は何か?)
- (n) What are the most important knowledge gaps to address regarding the underlying causes biodiversity loss in order to achieve transformative change and the global objectives mentioned above, and how can these knowledge gaps be addressed? (TCを引き起こすために必要な知識に関するギャップ)
