

Environment-Social SDGs

Integration into business planning and supply chains

Dr Cristina Martinez

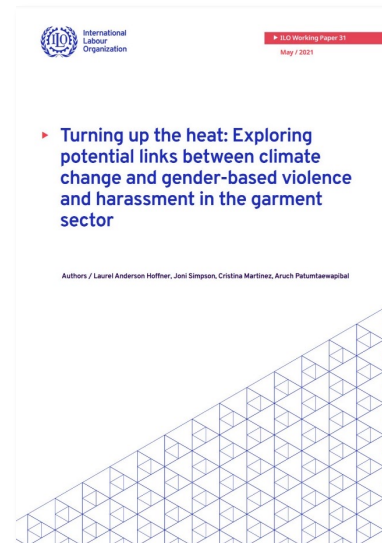

Senior Specialist, Environment and Decent Work
Asia-Pacific Coordinator - Green Jobs & Just Transition

The ILO Just Transition Guidelines

- A process and a goal to undertake climate change actions that equally advance:
 - ▶ job creation;
 - ▶ social justice; and
 - ▶ fair transitions for workers, enterprises and communities on an equal footing.
- A strategy to address the risks to the world of work associated with environmental challenges and response measures.
- A pathway to achieve SDG 5, 12, 13 and SDG 8 and contribute to the NDCs.

Integrating the JT Guidelines into value-chains
